PUBLIC WORKS INDEX

Volume 84

January-December 1953

HIGHWAYS AND STREETS

Bituminous Pavements

Month and page

Hot Plant Mix is Economical July–54
How to Design a Bituminous Concrete Mixture July–63
Rubber in Pavements–A Progress Report July–69
Pay-As-You-Go Paving Project Nov.–71
Pavement Rehabilitation in Oregon Nov.–74
Rubber Asphalt Paving in New Jersey Dec.–85
Steel Reinforces Asphaltic Concrete Dec.–87

Bridges, Culverts and Drainage

Planning the Pasco Bridge Mar.–81
Modern Toll Equipment for a New Bridge May–73
Quick Way to Replace an Inadequate Bridge May–101
Timber Bridges for County Highways June–68
Details of a Prestressed Concrete Bridge July–62
Erosion Control on Highway Slopes Nov.–67

Concrete Pavements

How Austin Paves Streets With its Own Crew Jan.–69
Saws for Making Concrete Pavement Cuts Feb.–81
Subsealing Concrete Pavements with Emulsion Sept.–139

Construction Methods

Nine-Acre Screen Protects Highway From Falling Rocks Jan.–49
Trenchers Do Eight Jobs on Building Project Apr.–92
What You Should Know About Soil Engineering Aug.–94; Sept.–84; Oct.–95
Keeping Traffic Moving During Construction Aug.–141
Road Research in Great Britain Sept.–54
How and Where to Build Macadam Bases Sept.–80
Building Roads With a Ditch Digger Sept.–95
How to Get Improved Shoulder Construction and Maintenance Oct.–80
Putting New Life in a Dying Road Oct.–86
Methods and Equipment for Soil Cement Paving Oct.–90
Building and Stabilizing an Access Road Nov.–90
Soil Cement Is Versatile Dec.–61
Restoring the Serviceability of Concrete Pavements Dec.–70
Heavy Macadam Salvages Old Pavement Dec.–88

Curbs, Gutters and Sidewalks

Problems of Subdivisions, Zoning and Private Streets Mar.–61
Sidewalk Patching Need Not Be a Headache Apr.–67
Suggestion for Establishing Street Grades Apr.–74
Curb Curves at Street Corners June–66
Pay-As-You-Go Paving Project Nov.–71

Design

Suggestion for Establishing Street Grades Apr.–74
Street Naming and House Numbering May–68
Curb Curves at Street Corners June–66
Details of a Prestressed Concrete Bridge July–62
Influence of Highway Design on Highway Accidents July–79
What You Should Know About Soil Engineering Aug.–94; Sept.–84; Oct.–95
Road Research in Great Britain Sept.–54

Equipment

Month and page

How Equipment Helps in Essential Maintenance Jan.–56
More Money and New Equipment for Georgia Highways Feb.–60
Why Construction Equipment Should Be Kept Clean Feb.–71
Reports from the Field–Machines Save Money Feb.–78
How Equipment Lowers Cost of Highway Maintenance Mar.–72
Practical Highway Maintenance Equipment Apr.–80
Twelve Ways Equipment Reduces Labor and Maintenance Cost May–77
Change Hoe to Crane in Less Than One Man Hour May–102
How a Central Equipment Agency Can Perform Nov.–96
Pavement Marker Spray Paints Equipment Dec.–67
The Wages of Tools Dec.–89

Finance, Legal and Planning

More Money and New Equipment for Georgia Highways Feb.–60
Problems of Subdivisions, Zoning and Private Streets Mar.–61
Modern Toll Equipment for a New Bridge May–73
Water Industry Problems in Highway Construction May–76
Priority Ratings for County Roads May–92
Los Angeles Study Reveals Freeway Benefits July–96
How a Small City Prepared a 3-Year Capital Outlay Budget Oct.–87
Financing Connecticut's Town Highway System Nov.–61

Materials

Separating Soft and Light Particles in Gravel June–114
Hot Plant Mix is Economical July–54
How to Design a Bituminous Concrete Mixture July–63
Rubber in Pavements–A Progress Report July–69
What You Should Know About Soil Engineering Aug.–94; Sept.–84; Oct.–95
Methods and Equipment for Soil Cement Paving Oct.–90

Roadside Improvement

How Equipment Helps in Essential Maintenance Jan.–56
Reducing Roadside Mowing and Shoulder Maintenance Mar.–67
How Equipment Lowers Cost of Highway Maintenance Mar.–72
Roadside Vegetative Cover July–84
Mulching on Roadsides for Erosion Control July–99
Erosion Control on Highway Slopes Nov.–67

Safety

Nine-Acre Screen Protects Highway From Falling Rocks Jan.–49
How to Get Public Employee Safety Nov.–56
If You Want Safety in Construction, Here is How to Get It Dec.–81

Snow and Ice Control

Ice-Free Roads Still Not in Sight May–113
Getting Ready for Winter Aug.–71
How We Get Florida Streets in Winter Aug.–72
Winter Maintenance in New Hampshire Aug.–74
Snow and Ice Removal in Upstate New York Aug.–75
Keeping Streets Clear in Winter Sept.–67
Prescription for Winter-Coated Streets Oct.–76

Stabilized Surfaces and Bases

Month and page

How and Where to Build Macadam Bases Sept.–80
Methods and Equipment for Soil Cement Paving Oct.–90
Pay-As-You-Go Paving Project Nov.–71
Building and Stabilizing an Access Road Nov.–90
Soil Cement is Versatile Dec.–61
Soil-Cement Pavement Withstands Washout Dec.–105

Street Cleaning

Hammond Speeds Up Street Sweeping Dec.–80

Street Lighting

Modern Street Lighting Design Jan.–71
Daylighting Intersections and Controlling Traffic Mar.–90
Fluorescent Luminaires for Alaskan Way Viaduct Mar.–90
Capsule Control for Street Lighting Apr.–94
Lighting Pedestrian Crossings May–92
Lighting and Traffic Control June–91
Standard Practice for Street Lighting July–79
The Use of Refractors in Street Lighting Aug.–82
Lighting and Traffic Control Nov.–80

Surface Maintenance

Holes Without Holdups–A Study of Surface Traffic Interference Jan.–50
How Equipment Helps in Essential Maintenance Jan.–56
Organizing for Street Rehabilitation Jan.–62
Saws for Making Concrete Pavement Cuts Feb.–81
How Equipment Lowers Cost of Highway Maintenance Mar.–72
Practical Highway Maintenance Equipment Apr.–80
How We Do a Better Job of Street Patching May–81
Patching Pavements Properly June–76
Subsealing Concrete Pavements with Emulsion Sept.–139
How to Get Improved Shoulder Construction and Maintenance Oct.–80
New Shoulder Maintenance Methods Oct.–116
Service Behavior of Calcium Chloride Treated Gravel Roads Oct.–134

Surveying Methods

Calculating Earthwork Volumes by a Contour Grading Plan Feb.–64
Air Surveys Get Better Maps for a Utility Feb.–66
Mesa Air Maps Prove Valuable Tools July–57
A Better Method of Earthwork Computation July–74
Aerial Photography Pays Off in Maryland Aug.–83
Highway Studies from Aerial Photographs Sept.–74

Traffic Control and Parking

Holes Without Holdups–A Study of Surface Traffic Interference Jan.–50
Daylighting Intersections and Controlling Traffic Mar.–90
Parking: Chicago Tackles Its Problem Apr.–68
How Cities Finance Off-Street Parking Apr.–94
Lighting and Traffic Control June–91
Red Stop Signs Urged Sept.–54
Automatic Signal Will Pay for Itself in Three Years Nov.–54
Radar Checks Motor Vehicle Speed Nov.–66
Lighting and Traffic Control Nov.–80
Evanston's Engineered Traffic Safety Dec.–74

Month and page

Weed and Brush Control

Reducing Roadside Mowing and Shoulder Maintenance ... Mar.–67
New Drilling Device Speeds Stump Removal ... Aug.–111

Digests

Jan.–92; Feb.–107; Mar.–100; Apr.–106; May–122; June–104; July–100; Aug.–130; Sept.–134; Oct.–136; Nov.–110; Dec.–100

REFUSE COLLECTION AND DISPOSAL

Collection Methods

Garbage and Refuse Collection and Disposal in Ohio ... Jan.–66
No More Gripes about Garbage ... Feb.–57
Wisconsin Practices in Garbage and Refuse Collection and Disposal ... Feb.–88
Modern Refuse Collection Units for Dickinson ... May–129
A Study of Refuse Collection ... June–133
A Survey of Refuse Disposal and Collection Practices ... Oct.–73
Trash–The Big Headache ... Nov.–63

Costs

Garbage and Refuse Collection and Disposal in Ohio ... Jan.–66
Costs of Garbage, Rubbish and Ash Collection ... Feb.–46
Wisconsin Practices in Garbage and Refuse Collection and Disposal ... Feb.–88
Costs of Municipal Refuse Incineration ... July–71
Charging for Commercial Waste Collection ... Nov.–94
Disposal by Sanitary Fill Costs 77.4 Cents Per Ton ... Dec.–76

Incineration

Belt Conveyors Handle Sewage Sludge ... June–75
Costs of Municipal Refuse Incineration ... July–71
12 Factors to Consider in Planning for Incineration ... Aug.–91
A Survey of Refuse Disposal and Collection Practices ... Oct.–73
How Can We Get Incineration? ... Oct.–82
Incineration Operation Good at Baltimore ... Nov.–32

Sanitary Fill

Sanitary Landfill Operated by Contract ... Mar.–63
Refuse Disposal in San Diego County ... Mar.–96
A Survey of Refuse Disposal and Collection Practices ... Oct.–73
Chicago's Economical Sanitary Fill ... Nov.–58
Disposal by Sanitary Fill Costs 77.4 Cents Per Ton ... Dec.–76
Sanitary Fill Successful in High Ground Water Area ... Dec.–116

Other Disposal Methods

Community Effects of Household Garbage Grinding ... Jan.–52
Shorewood Hills Will Grind Its Garbage ... Jan.–102
Studies on Composting City Refuse ... Apr.–34
Garbage Grinding Pays Its Way ... May–70
Heat-Treating Garbage ... May–83
Utilization of Toronto's Refuse ... July–103
Possibilities of Composting Municipal Refuse ... Oct.–126
Cooking Garbage for Hog Feeding ... Dec.–91

Digests

Jan.–98; Feb.–100; Mar.–106; Apr.–122; May–129; June–129; July–106; Aug.–137; Sept.–119; Oct.–150; Nov.–103; Dec.–115

Month and page

SEWERAGE AND SEWAGE TREATMENT

Finance, Legal and Planning

Community Effects of Household Garbage Grinding ... Jan.–52
Rentals Finance Sewer System and Treatment Plant ... Jan.–67
Industrial Wastes–A Community Problem ... Feb.–68
Public Relations Program Gets Better Sewerage ... Feb.–74
Bid Prices on Sewage Treatment Plant Additions ... Mar.–52
Sewage Works in Civil Defense ... June–73
Sewer Service Charges in California ... June–135
Sewage Treatment on Pay-As-You-Go Basis ... July–58
Solving the Subdivision Sewage Disposal Problem ... Sept.–77
How a Small City Prepared a 3-Year Capital Outlay Budget ... Oct.–87
Sewage Treatment Meets "Amazing Growth" Problem ... Nov.–59
How Denver Controls Out-of-City Sewerage Connections ... Nov.–77

Sewer Systems–Construction

Air-Placed Concrete Speeds Large Sewer Construction ... Mar.–66
Dual Clay Sewer Carries Industrial Waste ... June–66
Siphons Carry Sewage Under Expressways ... Aug.–85
Solving the Subdivision Sewage Disposal Problem ... Sept.–77
Big Sewer Tunnel Dug by Coal Mining Machine ... Nov.–94

Sewer Systems–Design

Flow Characteristics and Roughness Coefficients of Sewer Pipes ... Mar.–68
Dual Clay Sewer Carries Industrial Waste ... June–66
Siphons Carry Sewage Under Expressways ... Aug.–85

Sewer Systems–Maintenance

Detecting Gas in Sewers and Manholes ... Mar.–52
Testing Procedures to Locate Leaks in Storm Sewers ... Mar.–80
Sewer Maintenance: Sewers are Full of Surprises ... Aug.–111
How a 64-Year Old Sewer Was Relined ... Oct.–105

Sewer Systems–Storm Drainage

Testing Procedures to Locate Leaks in Storm Sewers ... Mar.–80
Steel Liner Plates Simplify Tunnel Construction ... Apr.–85
How a Serious Flood Problem Was Solved ... Apr.–127

Sewage Pumping

Sewage Pumping Station is In Country Club Set ... Jan.–58

Sewage Treatment–Design

Community Effects of Household Garbage Grinding ... Jan.–52
Engineering Data on the Aero-Filter ... Feb.–58
The Acceio-Filter System of Sewage and Waste Treatment ... Apr.–71
New Sewage Treatment Plant is Showplace of City ... Apr.–76
Biofiltration ... June–63
Sewage Treatment on Pay-As-You-Go Basis ... July–58
Waste Treatment Methods and Economics ... July–65
Moving Baffles in Sedimentation Tanks ... Aug.–104
Taking the Guesswork Out of Trickling Filters ... Sept.–82
Trickling Filter for Domestic Sewage and Radioactive Wastes ... Sept.–107
Prefabricated Media for Trickling Filters ... Oct.–93
Sewage Treatment Meets "Amazing Growth" Problem ... Nov.–59
Modern Sewerage System Serves 695 People ... Nov.–109
Sewage Treatment "Town and Gown" Partnership ... Dec.–65

Month and page

Sewage Treatment–Industrial Wastes

A Treatment Plant for Cotton Finishing Wastes ... Jan.–44
Industrial Wastes–A Community Problem ... Feb.–68
Tricking Filter Application to Industrial Wastes ... Mar.–75
Industrial Wastes Influence Municipal Plant Design ... Apr.–84
How Industry Makes A Waste Survey ... July–61
Research on Industrial Wastes as Related to Water Supply ... July–61
Solving Industrial Waste Disposal Problems in South Dakota ... Aug.–76
The Industrial Waste Problems of Cities: A Survey ... Sept.–63
Sewage Treatment Plant for Steel Mill Wastes ... Sept.–65
Activated Sludge Application to Industrial Waste Treatment ... Sept.–71
Trickling Filter for Domestic Sewage and Radioactive Wastes ... Sept.–107
Industrial Waste Plant Treats Domestic Sewage ... Nov.–73
Disposal of Tannery Wastes ... Nov.–94
Treatment of Slaughterhouse Wastes ... Dec.–119

Sewage Treatment–Operation

Filter Flies and House Flies at Sewage Plants ... Jan.–44
Cleaning the Piping System of a Fixed Nozzle Filter ... Jan.–46
New Sewage Treatment Plant is Showplace of City ... Apr.–76
Starting San Francisco's New Sewage Treatment Plant ... Apr.–96, 135
Sludge Gas Production and Use at Gary ... May–110
Belt Conveyors Handle Sewage Sludge ... June–75
Digester Cleaning and Sludge Gas Use ... Aug.–64
Results from Twelve Year Old Sewage Plant ... Aug.–115
Milorganite Sales Are a Good Investment ... Sept.–52
Industrial Waste Plant Treats Domestic Sewage ... Nov.–73
Fire Protection for Sludge Drying Plant ... Dec.–72
Measuring Flows and Computing Dosages ... Dec.–83

Sewage Treatment–Construction

Public Relations Program Gets Better Sewerage ... Feb.–74
Equipment Reduces Cost of Septic Tank Installation ... Aug.–106

Treatment Methods and Research

Dual-Purpose Sewage Treatment Plant Provides Research Facilities ... Jan.–64
Engineering Data on the Aero-Filter ... Feb.–58
The Accelo Filter System of Sewage and Waste Treatment ... Apr.–71
Environment for Anaerobic Destruction of Organic Material ... May–78
Biofiltration ... June–63
BOD Removals by Intermittent Sand Filters ... Sept.–52
Elements of Water and Sewage Chemistry ... Oct.–84; Nov.–78
Test Data on Sewage Sludge Filtration ... Nov.–32
Texas Water Work Operators' Training ... Nov.–98
Design and Application of Oxidation Ponds ... Dec.–89

Digests

Jan.–98; Feb.–100; Mar.–106; Apr.–122; May–129; June–129; July–106; Aug.–137; Sept.–119; Oct.–150; Nov.–103; Dec.–115

WATER SUPPLY AND PURIFICATION

Finance, Legal and Planning

Planning Gave Portland a Great Water System ... Jan.–60
Stream Classification and Water Use Zoning ... Apr.–82
Water Industry Problems in Highway Construction ... May–76
How a Small City Prepared a 3-Year Capital Outlay Budget ... Oct.–87
How to Get Public Employee Safety ... Nov.–56

Month and page

Pumping

Cathodic Protection for Deep Well Equipment ... Feb.–46
Dual Fuel Engines Cut Water Pumping Costs ... Feb.–65
All-Electric Pumping Station for Memphis ... June–67
How New Pumps Cut Water Plant Power Costs ... Aug.–89
Diesel-Driven Pumps Reduce Drainage District Costs ... Nov.–70
An Architect Designs a Pumping Station ... Dec.–68

Reservoirs and Tanks

Cleaning a Water Works Reservoir ... Feb.–104
Computing Requirements for Elevated Water Storage ... May–74
Portable Shelters Permit Winter Reservoir Construction ... Aug.–88
Elevated Tank Increases Water Pressure 15 Psi ... Nov.–86

Supply Lines and Distribution—Construction

Labor-Saving Equipment at Work ... Jan.–55
16,000 Meter Settings in a Hurry ... May–61
Construction Equipment for a Water Department ... May–64
How a Submarine Water Main was Laid ... July–76
Cutting Costs of Laying Water Pipe ... Aug.–62
Portland Builds a New Pipe Line ... Aug.–80
Protecting a Water Main Under a Bridge ... Nov.–65

Supply Lines and Distribution—Costs

Cost of Laying Water Pipe in Toledo, Ohio ... July–121
Cost of Laying Water Mains, Augusta, Me. ... July–121
Cost of Laying Water Pipe in Hartford, 1952 ... Nov.–30

Supply Lines and Distribution—Design

Computing Requirements for Elevated Water Storage ... May–74
Development of an Industrial Water System ... July–60
Details of Two Far North Water Systems ... Sept.–70
Toledo's Cross-Connection Program ... Sept.–78
Electric Calculators Solve Water Distribution Problems ... Oct.–78

Supply Lines and Distribution—Maintenance

Construction Equipment for a Water Department ... May–64
Breaking a Water System Bottleneck ... July–67
Air Compressor on Rubber Saves Money ... Aug.–64
Toledo's Cross-Connection Program ... Sept.–78

Treatment Plants—Operation

Mechanical Cleaner for Slow Sand Filter Beds ... Feb.–116
Garbage Grinding Pays Its Way ... May–70
Disposal of Wastes from Water Treatment Plants ... July–73
Measuring Flows and Computing Dosages ... Dec.–83

Treatment Methods

How to Cure Red Water Troubles ... Feb.–62
High Rate Water Filtration at Chicago ... Feb.–117
Fluoridation Reduces Dental Caries in Grand Rapids ... May–101
How Cities Save Money on Water Softening ... June–70
Fluoridation Equipment and Facilities ... June–113
Plant Improvements Reduce Taste and Odor Problem ... July–121
Elements of Water and Sewage Chemistry ... Oct.–84; Nov.–78

Month and page

Water Demand

Hourly Water Flow, Maximum and Minimum Days ... Jan.–46
Rating TV Programs by Water Demand ... Mar.–64
What About Increased Water Use and Water Shortages? ... May–82
Per Capita Use of Water in Schools ... July–97

Water Testing

How to Test for Sea Water Contamination ... Feb.–104
New Filter Used for Testing Water ... May–104

Water Supply and Sources

Planning Gave Portland a Great Water System ... Jan.–60
Phoenix Averts a Water Famine ... Feb.–73
Water Pollution Control in Georgia ... Feb.–111
Water from Inside-City Artesian Wells ... Mar.–70
Saline and Brackish Water Research ... Mar.–96
Civil Defense for Water Supplies ... Apr.–65
Stream Classification and Water Use Zoning ... Apr.–82
Increasing Water Resources Through Cloud Seeding ... July–61
Toledo's Cross-Connection Program ... Sept.–78
The Present Status of Rainmaking ... Nov.–53
A Suggested Solution of Texas' Water Problem ... Nov.–69

Digests

Jan.–84; Feb.–114; Mar.–92; Apr.–112; May–115; June–137; July–92; Aug.–122; Sept.–126; Oct.–143; Nov.–117; Dec.–107

ADMINISTRATION

Priorities and Allocations ... Jan.–76
Problems of Subdivisions, Zoning and Private Streets ... Mar.–61
How Community Development Can Help Your City ... Apr.–79
Duties and Public Relations of the Water Works Superintendent ... May–85
Public Works for a Boom Defense Area ... July–51
County Tax Structure Clarified by Public Relations ... Aug.–87
Using Motion Pictures for the Promotion of Public Projects ... Sept.–96
Standards for Subdivision Regulations ... Sept.–109
Phoenix Meets the People ... Oct.–75
How a Small City Prepared a 3-Year Capital Outlay Budget ... Oct.–87
Metropolitan Council for Toronto and 12 Suburbs ... Dec.–79

AIRPORTS

Jet Aircraft Do Little Damage to Airfield Pavements ... May–125
What You Should Know About Soil Engineering ... Aug.–94; Sept.–84; Oct.–95

CIVIL DEFENSE

Civil Defense for Water Supplies ... Apr.–65
Sewage Works in Civil Defense ... June–73
Cleaning Surfaces Contaminated with Radioactive Debris ... Nov.–30

MUNICIPAL POWER PLANTS

Dual Fuel Diesel Saves Half the Fuel Cost ... Apr.–108
Natural Gas Furnishes Cheap Power ... May–80
Tarboro Cuts Power Costs by Using Heavy Fuel Oil ... Aug.–79
Foresighted Selection of Dual Fuel Engine Cuts Costs ... Dec.–86

Month and page

INSECT AND RODENT CONTROL

Filter Flies and House Flies at Sewage Plants ... Jan.–44
Chemical Baits for Insecticide Resistant Flies ... Mar.–80
Procedure for Mosquito Fogging ... Mar.–96
What Next for Mosquito Control? ... June–71
Recommendations on Insecticides ... June–98
Rat-Resistant Construction Materials ... Nov.–30

PUBLIC HEALTH

Stream Classification and Water Use Zoning ... Apr.–82

RECREATIONAL FACILITIES

Playground Equipment Needs Maintenance ... June–134
Good Equipment for the Swimming Pool ... Dec.–77

GENERAL AND MISCELLANEOUS

Poulation Forecasts for New England and New York ... Jan.–44
Speak Up, Mr. Engineer ... Jan.–54
Training School Combats Engineer Shortage ... Jan.–68
Compressed Air Keeps Pond Clear of Ice ... Apr.–86
Building a New City in the Canadian Northwest ... May–135
Specialty Board for Sanitary Engineers Recommended ... Sept.–26
The Weather Consultant—What He Can Do for You ... Nov.–76
Public Works of San Diego on TV ... Dec.–64
If You Want Safety in Construction, Here is How to Get It ... Dec.–81

LEADERS IN PUBLIC WORKS

Don E. Bloodgood ... Jan.–1, 22
Karl F. Hoefle ... Feb.–1, 26
John S. Flockhart ... Mar.–1, 26
Clarence W. Klassen ... Apr.–1, 24
Thomas J. Skinker ... May–1, 24
Robert L. Anderson ... June–1, 24
Peter C. Karalekas ... July–1, 24
J. C. Boyd ... Aug.–1, 28
B. A. Poole ... Sept.–1, 28
Soulé Butler ... Oct.–1, 20
William A. Bowes ... Nov.–1, 24
D. C. Wesche ... Dec.–1, 22
